

*This is a proposed addition to the existing Priorities document.*

*Present*

*1. Anti-War Work*

*DSA, at both the national and local level, will continue to work to end the war in Iraq and resist efforts to create a wider war by escalating conflicts with Iran.*

*Add:*

*DSA opposes the Iraq war as a part of our position opposed to imperialism and the hegemonic domination of international relations by a few countries and a few corporations. This domination of the international system by a few countries and a network of powerful corporations costs the people of the U.S. our national treasure, the lives of our people, it restricts and limits our own democracy and our sovereignty, and it causes major economic dislocations including global poverty and global migration.*

*In our anti war work we will work in coalitions toward an anti imperialism perspective.*
